

Student name: Xudanlei Liu

Original web: <http://www.mapleleafschools.com/>

-comments:

The original logo wasn't obvious clear.

They can use school picture as background rather than pure white.

This website needs more contents to lead visitors to read.

-redesign:

For this main page, it includes four boxes in total.

There is a big logo in the middle, and four separate boxes below it, each box contains several links of details explanation. (like school life – school activity – activity calendar)

I think the original web's main colour was good so I will not change it (dark green)

-fonts&image stuff

title words – 50px yellow bold type

content words – 30px yellow bold type

detail links key words – 16px yellow regular type

box colour&main colour – green
